Making Imagination Tangible: From the Dreamer's Perspective

1-2 weeks

Using the simple Student Worksheet, the Dreamer (student), writes what they want to see brought to life (their "Dream")* An AI-generated picture of each Dream is sent to the school, with product options, to go home to the Dreamer's Family

The Dreamer and Family confirm if the image met the Dreamer's intent. If it didn't, we'll try again!

The Family selects
personalized
products (mugs, tshirts, stickers,
magnets) for the
Dreamer and their
loved ones

1-2 weeks

Products are delivered to the school to go home with the Dreamer or picked up by the Family

*Some students may require more help filling out the Student Worksheet.
The Student Worksheet was designed to be accommodating. Teachers may try:
Pointing, Use of "yes/no", Choice from multiple options, etc.
